

Gilead Advancing Access Patient Support Program

Helping your patients access their prescribed medication. Whether your patient has insurance or not, Advancing Access may be able to help.

Program Support Offerings

BENEFITS INVESTIGATIONS

Advancing Access can help by researching and verifying your patient's specific insurance benefits and coverage for SUNLENCA® (lenacapavir 300 mg) tablets oral loading dose and BIXLENVO maintenance pills. This includes verifying any in-network pharmacy requirements.

PRIOR AUTHORIZATION

APPEALS INFORMATION

MEDICAL EXCEPTION INFORMATION

Advancing Access can provide information about prior authorization (PA) requirements, appeals, and medical exception processes.

THE GILEAD ADVANCING ACCESS CO-PAY SAVINGS PROGRAM BIXLENVO*

For eligible commercially insured patients. If eligible, Advancing Access may be able to help your patients lower their co-pay to as little as \$0 for their prescribed Gilead medication. Coverage varies by product. For up-to-date coverage, or to enroll your patient in the Co-pay Savings Program, visit GileadAdvancingAccess.com/HCP.

PATIENT ASSISTANCE PROGRAM (PAP)

Eligible uninsured individuals may receive their Gilead medication free of charge through the PAP. To determine eligibility, visit GileadAdvancingAccess.com/HCP to enroll your patient online, or download an enrollment form from the website and fax it to the program.

NOTE: New program enrollees have the option to pick up their first 30-day supply of their medication at a participating retail pharmacy. All subsequent fills sent via mail order.

DEDICATED PROGRAM SPECIALISTS

When you contact Advancing Access, a program specialist can provide you with information about the coverage options for your patient's prescribed Gilead medication and what support may be available to them through the program.

ALTERNATE COVERAGE SUPPORT

If your patient lacks insurance, Advancing Access can research alternate coverage options to identify whether they may be eligible for coverage through an AIDS Drug Assistance Program (ADAP), independent foundations, Medicare Low-Income Subsidy (LIS), Medicaid, or health insurance exchanges (during open enrollment).
